

WHY CORNERSTONE?

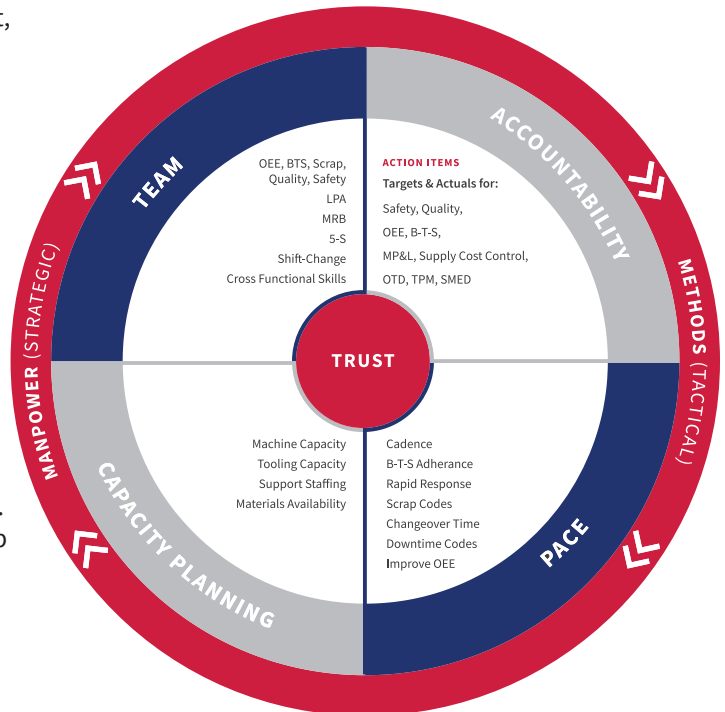

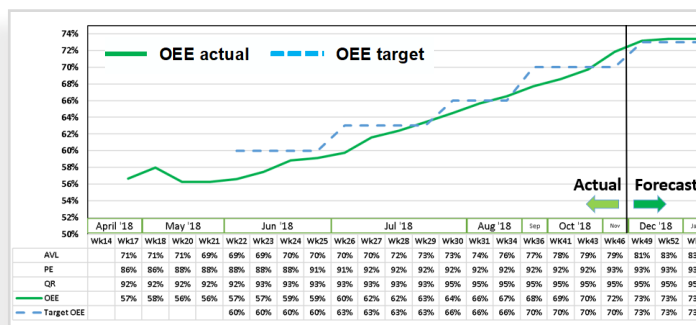

When your business faces challenges you're not sure how to meet, the experts at Cornerstone Consulting Organization have your back. With our unique and proven Operational Excellence Model, **"The Cornerstone Way,"** we will restore stability, velocity, and profitability to your operation.

There are four dimensions in our model, which emphasize creating performance metrics, communicating expectations, and holding the team accountable for results. We study the operations through a **Capacity Planning** module, establish a **Pace** or cadence for execution, and drive **Accountability** throughout the **Team**.

LASER-FOCUSED PROBLEM SOLVING

When you reach out to Cornerstone, the first thing we do is **listen**. After receiving your initial assessment of the situation we'll set up a meeting to define the essentials:

- Identify the core problem
- Assess the current state of the business
- Determine the project scope and objectives
- Determine how to measure success
- Identify required resources
- Define mutual accountabilities
- Create a plan for sustainability after project completion
- **EXECUTE!**

"AT ITS CORE, OPERATIONAL EXCELLENCE IS A MIND-SET. IT'S NOT ABOUT INCREMENTAL IMPROVEMENT. IT'S ABOUT BUILDING AND SUSTAINING A DECISIVE COMPETITIVE ADVANTAGE."

RAPID DEPLOYMENT

The Cornerstone team responds rapidly, assuming key leadership roles and taking the actions necessary to remedy the issues at hand. Our proprietary operational excellence system enables us to establish effective governance over any type of process and produce evidence of recovery within 30 days. Throughput velocity is key, and we target overall equipment effectiveness (OEE) early in deployment.

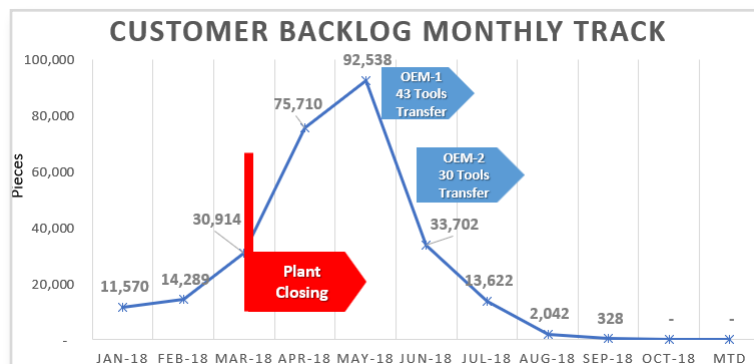

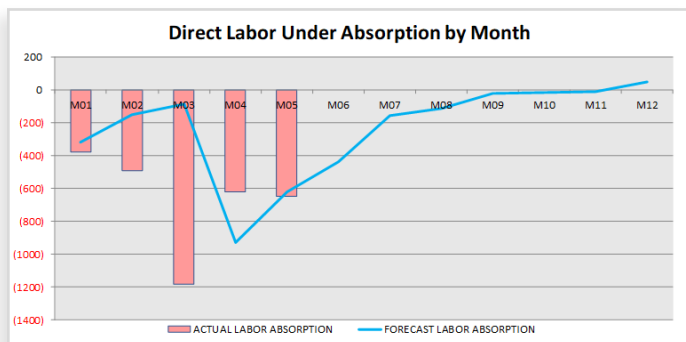

COLLABORATION

After analyzing this information, we quickly create a plan of action, share it with your team, and make any necessary revisions before moving forward. Then, we initiate the project with a collaborative kickoff. Depending on the size and scope of the project, a member of our executive team may be on site for the first few days to make sure everything gets off to a great start.

EXECUTION

CCO is an execution-oriented consulting firm that is ready to jump into action and work “in the foxhole” with your team to close the gaps in performance. We build predetermined gate reviews into every project; after the kickoff, we’ll meet with you on a regular basis to go over the current state of the project and update you on progress. Valued-based customer KPIs are essential, and we track them diligently.

SUSTAINABILITY

As we deliver results, we’ll work with your organization to ensure that the value created will be sustained—and even extended. We do not simply tell you what to do; we show you how to do it and set you on the path to success. Labor efficiency is a key value driver in sustaining improvements, and our solution is based on evidence.

THE CORNERSTONE DIFFERENCE

At Cornerstone Consulting, we do not operate like the large global consulting firms. We work as an extension of your team, on the ground with you, to reach your business goals. We teach you how to implement and leverage the principles of operational excellence and FIT Manufacturing to maximize the value from your systems. We attack and reduce all forms of waste while ensuring your company maintains the resources needed to meet customer demands.

CCO is a certified Service-Disabled Veteran-Owned Small Business with a proven track record of maximizing earnings, cash flow, and profit for our clients. **Let us show you how to transform your organizational fatigue into operational FITness!**
